Beauty Care Revolution

Efficacy and Principle

Legs of human body are the most distant part from the heart and thus easy to be harmed by bad circulation of the blood. Defective blood circulation causes diminishing the amount of oxygen transmitted to legs, which in turn causes trouble in fat resolution and metabolism. 3 dimensional contraction massage of Airobix pushes up wasted fluid in your vein and lymphatic vessel. And as the result, a better circulation of blood, lymph, and oxygen prevents your legs from getting more fat in the capillary and flesh. Airobix penetrating massage is highly recommended to be the best and healthy way to slim leg line. Especially for those who
